摘要

The respect old man code was having been written in government' s documents of Qin dynasty and the other China dynasty before Qin. But it was questionable that this code has carry out in reality life. This paper is making Han' s law for example to examine the code of respect old man and implementation. The code of respect old man in Han dynasty law was according age and title of old man, if old man was elder and his title was higher than the other, that he can obtain more privileges.
