摘要

Tai - chi , Lan - i , San - cai , Ba - gua are the fundamental elements of the Chinese traditional culture , In a few words , the significance of Tai - chi is wholeness , Lan - i is two different tracks , San - cai is three kinds of system , Ba - gua is eight forms of phenomenon . This cultural pattern contains the thoughts of chinese about Metaphysics and Concrete science .

On the other side , the cosmology in the Western culture discusses about the borning of Universe , time , space , matter and energy . And we discover these two different ways which have the possibility of combination . Finally , we will talk about the unexplain secret of the World of Tao .
